

EE357 pre-lab preparation
Lab session: Feb. 15th, 2013

Please follow the instructions below before you attend the session.

Instructions:

1. Read 'ADD' instruction and variations on 4-2 ~ 4-6 of coldFireManual.pdf.
2. Practice using ADD, ADDA, ADDI, ADDQ and BRA.
3. Review 2's complement addition.

Note:

1. A Lab assignment will be given at the beginning of the session, and must be evaluated before the end of it.
2. Must bring a fully working laptop with Codewarrior to get full credit.
3. Must be present (both team members) during the session to get full credit.
